Sealife V Dive Boat

There is only one boat to dive from in Sydney, the Sealife V. This award winning custom designed dive boat can get you to the best dive sites in the fastest time, safety and comfort. That means less travel time and more bottom time for you.

You can book your Sydney SCUBA diving adventure at www.prodivesydney.com. Then simply turn up at one of our two departure points (Manly for those on the north side of the Harbour or Rose Bay for those on the south side).

All the diving gear is already aboard, so no wasting time picking up gear or carting it around with you. Experienced dive guides brief you at each location, refreshments are served during surface intervals, there are also hot showers and a toilet onboard.

Rating: Green - Easy Blue - Medium Black - Advanced

Most Popular Sydney Dive Sites

Long Reef	Cert: Openwater & AOW Max depth: 25m	There are many good dives along 'The Wall' running north/south and 'The Apartments' might just be the 'fishiest' dive in Sydney. You'll find soft coral, sponges and a variety of fish; rarer species hide in the crevices along 'The Wall'. Prone to currents.
Dee Why	Cert: Openwater & AOW Max depth: 30+m	An extensive reef system off the northern beaches which drops to 30m, thus considered an AOW+ dive. Discover a variety of fish, sponge gardens, pelagics.
Magic Point	Cert: Openwater Max depth: 25m	Magic point, our most popular dive-site! Located off south Maroubra Beach, it's the location of Sydney's Grey Nurse Shark population. Fear-some-looking yet placid creatures, the shark dive is exhilarating! The shark cave lays in 16m of water and the outlying area is worth exploration!
Wedding Cake	Cert: Openwater Max depth: 25m	A great dive site located off Coogee on Sydney's southern coast. An interesting dive that has many nooks and crannies to explore.
Blue Fish Point	Cert: Openwater Max depth: 25m	Blue wrasse, lionfish, and Weedy Seadragons can be found among the boulders, drop-offs and kelp. Explore the wall at Blue Fish for interesting macro stuff. 'Runway 36' is a reef located out on the sand where all sorts of fish life and macro-life occurs!
North Bondi	Cert: Openwater & AOW Max depth: 28m	When the viz is at its best this is a spectacular dive! North Bondi formations are the 'Slot Cave' and 'The Cathedral', which lie in 16m of water. Swim-throughs, exciting topography and schools of fish are the highlights.
North Head: Old Man's Hat + The Blocks	Cert: Openwater & AOW Max depth: 28m	Numerous (mostly) sheltered sites extending from Quarantine Head east along the base of North Head past 'Old Man's Hat' and on to 'The Blocks', has a diver swimming along an extensive underwater scree slope which was named after the huge local boulders. You can see Wobbegong Sharks, Cuttlefish, blue groper, octopus and nudibranch with swim-throughs and sponge gardens. Weedies & Ghost Pipefish hide amongst the kelp and can be found by the keen-eyed diver!
The Stack	Cert: Openwater & AOW Max depth: 33m	A dive site not far from North Bondi, 'The Stack' is named after the old sewerage vent located on the cliff-top. A great dive site that also allows for much exploration amongst the reef's stepping structure which drops from 12m to over 30m! Expect to see lots of cuttlefish. At the right time of year, huge schools of swirling, circling salmon will mesmerize you!
The Gap	Cert: Openwater Max depth: 23m	The reef here runs to a maximum depth of 23m. The reef has a lot of small and large boulders as well as a sheer wall. The boulders create a lot of swim-throughs and small caves. Some of the large boulders, covered in sponges, ascidians, sea squirts and small gorgonias. Fish vary from black drummer, luderick, to blackfish and grouper, one-spot pullers, leatherjackets, and bream. Huge schools of yellowtail kingfish are not uncommon!
Rosa Gully	Cert: Openwater Max depth: 23m	So named because of the adjacent landmark, a deep ravine in the sandstone cliff, Rosa Gully is one of those pleasant dives where you can relax into a nice fossick amongst the crevices and crannies of the reef system. Look out for Weedy Sea Dragons on the deeper kelp beds! Expect to see lots of pelagic at this location.
Manly Bombie	Cert: Openwater Max depth: 16m	This is a classic and very pretty dive comprising of wide canyons that are home to the famous weedy sea dragons. A great notice dive located opposite the Manly Beach
Valiant	Cert: Advanced OW Max depth: 27m	This 20 year old wreck sits upright in 27m of water. It is 22.5m in length and 5.4m wide and covered in beautiful marine growths attracting a wide variety of fish life such as yellowtails and kingfish.
Annie Miller Coolooli	Cert: Experienced Diver Max depth: 48m	Both these wrecks are beyond recreational dive limits and you will need to be an experienced diver to participate. The Annie Miller a coal cargo ship sank in 1929 in tragic circumstances near Bondi and the Coolooli was a dredger that was scuttled to make an artificial reef near Narabeen - both of which are excellent wreck diving site

NEW Experience Dive Program

In order to provide a better service to our divers on Sealife V, PRO DIVE have introduced a *NEW Experience Dive* Program and in conjunction with this program we have also introduced the Dive Site Rating System to enable all divers to choose dives to suit. Our *Experience Dive* programs are exactly what they say they are, an opportunity to gain real world experience in a particular area of diving. Everyone on the dive participates in planing and conducting the dive - the Instructor is there simply to impart his knowledge and experience to the group. The choice of *Experience Dive* we are offering: Shark Dive, Navigation Dive, Buoyancy Dive, Underwater Photography Dive, Deep Dive and Wreck Dive. When: To book an *Experience Dive* please book in advance - just call 1800 820 820 the cost is \$50.00 extra per dive.

PRO DIVE's Dive Site Rating System

Green Dives: Shallower sites, depth range 8-20 metres, normally easy dives

Blue Dives: Generally allow for deeper diving, depth range 10 -30 metres, can be subject to stronger currents and often rougher sea conditions

Black Dives: Suitable for more experienced divers, depth range 20 - 40+ metres, can be subject to strong currents and rough seas conditions.

NOTE: Being a certified diver you would be aware that wind, waves and visibility can turn even the easiest dive site into a more difficult one, so please understand that these ratings may change depending on the conditions on the day, furthermore dive sites are subject to change and no refunds will be offered if we are unable to dive the advertised site. Depths specified in this booklet should be used as a guide only.
